

SUPER TANK BACK AGAIN

Supporting the Wimmera Machinery Field Days for another year is the Australian Travelling Fishing Show' or as operator Michael Cooke likes to call it the 'Super Tank'. If you missed it last time then this year make sure you get along to one of the Super Tank Shows.

Proudly sponsored by Russell Cairns Marine and at a spectacular 15 metres long and 3 metres high the countrys biggest fish tank on wheels is home to Australia's only 'performing' Barramundi'.

'There will be several shows throughout each day of the Field Days and providing the Wimmera public with some great entertainment and information about fishing for recreation and conservation'

Michael Cooke will also be demonstrating the many different types of fishing lures on today's market and will show how the fish react to them and the different techniques used by many of today's top anglers'

Field Days Manager Murray Wilson said 'we are really excited to have the Super Tank back again supporting the Field Days for 2011 and it is great to have Russell Cairns Marine come on board as a key sponsor to make it happen'.

'This is one of our most popular attractions drawing large crowds each day' said Murray 'The Wimmera has finally got some water back in the rivers and many lakes so boating and fishing is making a much anticipated and popular comeback to the region and having Russell Cairns Marine and the Super Tank back here at the Wimmera Field Days is just fantastic.
